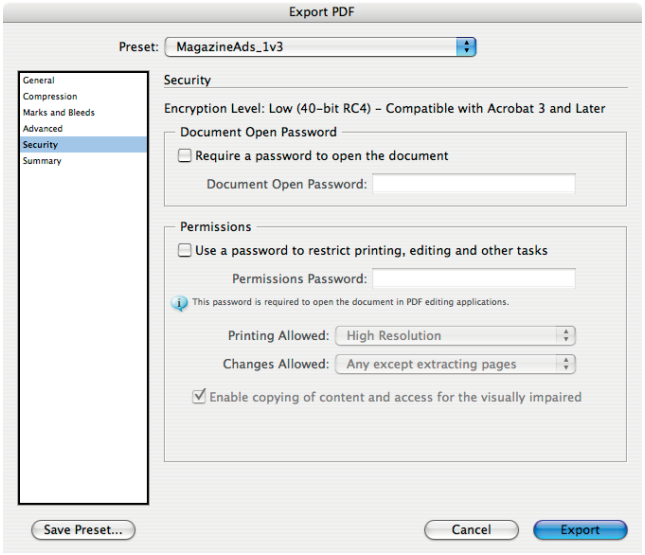
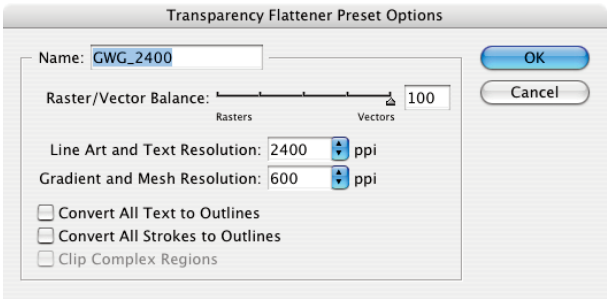
In this field it is very important to select the proper colour conversion settings yourself:
- please check with your output provider which ICC profile is appropriate,
or select the ICC profile that was used for converting images to CMYK in PhotoShop or InDesign;
- the indicated GWG_Generic_CMYK.icc selected here indicates that colour conversion settings are not specified;
<u>Colours in your document will change if:</u>
- objects in RGB colour space with or without ICC profiles are used in the document
- CMYK objects with different ICC profiles are placed in the document





The GWG_2400 Transparency Flattening settings are set under Edit>Transparency Flattening Presets>New... as below:
